PERSONAL PROFILE AND RESEARCH INTERESTS

I am a PhD candidate at the Humboldt University Berlin, Germany. Additionally, I am affiliated to the German Institute for Economics Research, DIW Berlin. My research focus is on labor, gender and behavioral economics. As a researcher, I have worked on micro-economic modelling, survey design, and empirical analysis of administrative and survey data based on both reduced form methods as well as dynamic structural models. I further have valuable international and private sector work experience. An open minded team player, excited by human psychology, technology, and innovation.
